

Flexible 8.4mm (.330") diameter Industrial Fiberscope with 4x Tip Articulation

# Model IFS-8 - SEE INSIDE

for Internal Visual Inspection

OPTIM Incorporated's rugged 8.4mm diameter fiberscope provides high-quality direct visualization of inaccessible areas. A fray-resistant tungsten shaft, water and fuel-tight construction, and photo/video adapters add to the scope's versatility. Model IFS-8 fiberscope offers a bayonet mount style handle light guide for extreme portability within a plant, along an assembly line.
